

## Math 10 and 15 Calculator Policy

A Scientific calculator is required for Math 10 and 15. Some brands are not allowed because of capabilities that interfere with the course objectives. Students should carefully check their calculators to make sure they have one on the following approved list.

- These calculators are approved for all Math 10 and 15 activities and tests:

**TI-30Xa**  
**TI-30X IIB** (also sufficient for Math 1830)  
**TI-30X IIS** (also sufficient for Math 1830)  
**TI-34 II Explorer Plus** (also sufficient for Math 1830)  
**TI-36X II** (also sufficient for Math 1830)  
**TI-36X Solar** (also sufficient for Math 1830)

**Casio FX-115MSPlus** (also sufficient for Math 1830)  
**Casio FX-300MSPlus** (also sufficient for Math 1830)  
**Casio FX-260Solar**  
**Casio FX-250HC**

**Sharp EL-531WBBK** (also sufficient for Math 1830)  
**Sharp EL-531WBBL** (also sufficient for Math 1830)  
**Sharp EL-501WBBK**  
**Sharp EL-501WBBL**  
**Sharp EL-500WBBK**

- These calculators are NOT allowed for any Math 10 or 15 tests:

Any Graphing or Programmable calculator.

**TI-30XS MultiView**  
**TI-34 MultiView**

**Casio FX-115ES**  
**Casio FX-300ES**

**Sharp EL-520WBBK**  
**Sharp EL-506WBBK**  
**Sharp EL-W516B**  
**Sharp EL-W535B**

- Simple Basic calculators do not have enough features for Math 10 or 15.
- Business and Financial calculators are not appropriate for Math 10 or 15.

When reviewing your calculator needs, also consider the calculator policies for the college math courses you plan to take. Click this link, and click the course to see the calculator policy in the syllabus:
