November 6, 2012

The Health and Human Performance program has changed over the past ten or more years so that now 47% of the majors are Physical Education teaching, and 43% are Health Promotion compared to 90% HPE teaching and 10% Health Promotion (2000, 2001, 2002). The Health and Human Performance program has requested that they operate as a separate department.

The budget for the School of Education, and the Health and Human Performance program has already been separated and approved by Dean Throop. Work is progressing on separating the DRB, SRB process that will be completed by the end of the 2013-2014 academic year.

The Director of the School of Education and the Dean of the College of Liberal Arts and Education approves the separation of the Health and Human Performance Program from the School of Education.

Dr. Karen Stinson  
Director School of Education

Dr. Elizabeth Throop  
Dean Liberal Arts and Education
