   a. Change of Name for the Counselor Education Program to Counseling Psychology Program. (Kimberly D. Tuescher)
      Justification:
      The program title “Counselor Education”, has been effective since the 1980’s and no longer accurately reflects the curriculum of the program. The title “Counseling Psychology” is consistent with the current training practices of the profession across the country. Further, it defines the emphasis of our training program with more accuracy. The professors of the current program are received their training in Ph.D. Counseling Psychology programs.
