Resource Allocation, Management, and Planning Guiding Principles

- Encourage integrated planning that supports resource allocation aligned with the University's mission and strategic priorities.

- Allocate resources by considering both long-term and short-term needs through a process that incorporates feedback across campus constituents.

- Promote responsibility and accountability through enhanced visibility and planning, both locally and university-wide.

- Incentivize performance and effective management of revenues and expenses.

- Provide reliable, trusted, and timely data for effective decision-making over time.

- Create a budgeting process that is simple, transparent and informed.
