I like the way this is shaping up. Thanks for your input Todd. I'd like to see us add something about library resources under new technology too.

Lisa
iv. What barriers are there to achieving these objectives? (This can be used to identify opportunities to advocate for the program.)

v. List any department policies regarding usage of the technology. (This can be used to determine adherence with University standards.)

vi. List any innovative uses of the technology. (This can be used to identify improved practices across the University.)

vii. What is the skill of faculty and staff utilizing the technology? (This can be used to advocate for additional training.)

New Technology Information

i. What new information technologies are you piloting or would like to explore?

ii. What is the learning or objective in using this technology and what is the level of efficiency of using this tool?

iii. Why is this technology needed? EX: Is it a replacement for something currently used or is it increasing learning objectives?

iv. How does it fit into the strategic components of the University?

This is all that I would request is changed.
