AOC Summary of Services for Students with Disabilities Assessment Review

On April 27, 2009, the Assessment Oversight Committee (AOC) conducted an assessment review of Services for Students with Disabilities (SSWD). Ms. Becky Peters presented the report. She explained the mission and student learning outcomes for SSWD, and she highlighted the importance of helping students with disabilities learn how to advocate for themselves. She also notes some changes they have made as a result of assessment over the years, including the redesigning of the website and materials they send to prospective students, improving note-taker services, and improving the way they explain to students how to request accommodations from faculty.

The AOC commended Ms. Peters on the work SSWD is doing and their efforts to assess and make changes based on assessment. The assessment report was very good.
