AOC Summary of Theater Assessment Review

DRAFT (3/23/09)

On March 23, 2009, the Assessment Oversight Committee (AOC) conducted an assessment review of the Theater program. Dr. David Schuler, program coordinator, presented the report and described the assessment of the Theater program. The ultimate assessment is the six-times-per-year production of various performances. Placement is also an important part of assessment, and Schuler recounted recent successes in placing theater majors in MFA programs and jobs. He noted that various curricular changes that Theater is making, aided by a CIF grant. He also noted that the assessment plan posted on the web and dating from approximately 2005 is out of date.

The AOC praised Schuler for his assessment report. The AOC agrees that Theater needs to submit a revised assessment plan with matrices and commends him and his faculty for their success in turning around the Theater program. Dr. Schuler followed up with a revised assessment plan that will be posted on the AOC web page.
