The meeting began at approximately 4:05.

1. The minutes for the October 24, 2011 meeting were approved with a minor revision (the removal of “Unfortunately” from Item #3.

2. Amy Griswold and Eric Pleiss presented on the AAF grant. This included the history and development of the Return to Learn (R2L) program and an assessment of the program’s methodologies / objectives. The input from the AOC committee members included the suggestion of greater faculty involvement in the R2L process. This could be done with the use of extra credit to students that use this resource. The AOC also recommended that R2L online survey should be more accessible on the website. The AOC concluded that the sample of the previous survey did not have enough participants to draw a valid conclusion.

3. Dominic discussed the NSSE data. He focused on how the current UW-Platteville related to past UW-Platteville NSSE reports. Seniors were used as his sample group to emphasis the development of the person’s self perception in connection with an overall sense of the university.

4. The meeting adjourned at approximately 4:35.
