The Parking Policy Advisory Committee will review existing parking policies and make appropriate recommendations to the Chief of University Police and/or the Vice Chancellor for Administrative Services. Additionally, the Committee may assist with other policy level decisions such as:
- Creating policies related to closing lots for events.
- Determining a fee structure for closing lots.
- Reallocating parking lot designations in reaction to growth and usage patterns.
- Recommending additional parking.
- Providing input on parking agreements with the City of Platteville
In addition, this Committee will have the charge to develop and manage a subcommittee to handle parking appeals. The Parking Appeals Committee will manage appeals by those who have been issued parking citations. Currently, those appeals are managed by the University Police Department, even though University Police is the entity writing the citations. Having an appeals process separate from University Police is standard in UW System and increases accountability and transparency.
As part of its deliberations and recommendations, the Parking Policy Advisory Committee will be mindful of the need for service and accommodation while maintaining fiscal responsibility and integrity.

Committee Structure:
The Parking Policy Advisory Committee will consist of:
- Classified Staff – 2
- Academic Staff – 2
- Faculty – 2
- Students – 2
  - For the student representatives, one should represent off campus students and the second should represent the residence hall students
- Ex-Officio
  - Chief of University Police
  - Sergeant of University Police
  - University Buildings and Grounds Superintendent
  - University Sustainability Coordinator
