New anatomy and physiology course available

Starting with the spring 2016 semester, UW-Platteville Online will offer Biology 2340 - Essentials of Anatomy and Physiology. The undergraduate course was co-developed by instructors Nadia Sifri and John Peterson.

The course will serve as a basic introduction to the complex interdependence of structure and function of the human body and will include a lab component.

Choosing her own adventure leads student to success

"I've just had such a positive experience with UW-Platteville," said Deb Quentel. "The instructors all challenged..."

me and were demanding -- in a good way! Everyone taught me something different and all the classes resonated one way or another. Even working with fellow students -- when we'd answer the same questions differently, it made me think in new ways. If all goes well, I will graduate in December and it will just cap off an awesome experience.

Sesquicentennial celebration continues

What do miners, teachers, and the Chicago Bears have in common? UW-Platteville, of course!

As we continue our 150th anniversary series, we invite you to view our video commemorating some of the many ways the university remembers the past, celebrates the present, and pioneers the future. For a more detailed history, check out our interactive timeline.

The Pioneer Connection strives to keep students informed of news and events associated with UW-Platteville Online. We are always looking for new ideas, ways to improve, and students to profile, so we encourage you to send your ideas our way. If you have an idea for a story or profile, please contact the editor, Megan Hinderman, at hindermanm@uwplatt.edu.
