I-20 AND VISA INFORMATION

Most international students seeking master’s degrees come to the United States on a student F-1 visa. To secure an F-1 visa, students must present their I-20 form at a U.S. Embassy/Consulate.

After all requirements for admission have been met and a letter of admission has been issued by the School of Graduate Studies, all international students must log in to their International Student and Scholar Services (ISSS) online account to complete the I-20 Request Form and the Mailing Request Form before their I-20s will be issued and mailed to them. A student’s online ISSS account will also provide specific information regarding transportation, orientation, immigration, academic, and personal adjustment services.

If you are an international student and are currently studying in the United States on an F-visa and seek to transfer to UW-Platteville, it is required that the International Student Advisor/DSO at your current school complete the Transfer Clearance Form. You must then upload it to your online ISSS account.

During their entire stay in the United States, students will be held to the conditions of admission located on the I-20. Before receiving the F-1 visa, a student must satisfy the Embassy/Consulate regarding their financial ability while in the U.S. as well as provide evidence of health insurance.

U.S. Citizenship and Immigration Services will, upon the student’s arrival in the United States, issue an electronic Form I-94 (Arrival and Departure Record), which is generally valid for the duration of the approved program of study at the university issuing the I-20. The Form I-94 and the information stamped in the students’ passport at the U.S. port of entry indicates the student’s date and place of entry, status and an admission number.

HEALTH INSURANCE

Participation in the UW-Platteville group health insurance policy through Student Assurance Services (SAS) is required for all F and J international students, scholars, and their dependents, except for students receiving sponsorship and insurance coverage from the governments of Kuwait or Saudi Arabia.
