Agenda:

1. Update from Last Year’s Chair

   To maintain some level of continuity, Elmo Rawlings will meet with us to discuss the recent progress of the AIRC

2. Revise Guidelines for SAIF Proposals

   Please review the current guidelines for the SAIF Proposals (Category A and Category B). We can discuss suggested changes at this meeting and approve them at the next. The current guidelines can be found at http://www.uwplatt.edu/sponprog/InterGrnts.html

3. Meeting Time for Next Semester

   Since the bulk of our work occurs next semester, we should probably begin to block off some convenient times. I know it’s too early to set anything in stone, but if we plan ahead, we might be able to find a time that works for everyone.
