Members Present: Skrede, Penn, Holverson, Hunt, Rick Zack (Guest & prospective member).
Members Absent: Nzegwa, Wein, Rawling, Barnet, Riedle (resigned – but will suggest replacement), Soja, Student Representatives, Stephens, Palmer, Valaskey

The meeting started at 11:05.

Hunt volunteered to take minutes.

⇒ Commissioners revisited the language of the purpose and duties to ensure student participation does not require membership in either RHA or Student Senate rather that each body designates appropriate representation on the commission. In the Employee Handbook 2006-2007 Campus Planning Commission at Section Composition of Commission, point 3 is amended to read *Three (3) students, one (1) chosen in a manner determined by the Residence Hall Association and two (2) chosen in a manner determined by the Student Senate.* This language will be circulated for review and comment prior to submission. Please review and comment!

⇒ Laurel Skrede provided the following information:
  - Parking issues along Southwest Road near the UWP greenhouse need to go through the Platteville City Council. The process can be approached informally or formally by any citizen or an official designee of the university. Hunt will convey this information to Mark Zidon SOA director.
  - The Sole (sp?) house is vacant, will be razed, and parking construction will likely begin this summer 07.
  - The raucous activities at Southwest Hall are calming down. It has taken some time for students and staff to make adjustments. The residence hall is: isolated from other halls, suite style, accommodates larger gatherings, and has more outside visitors. Campus security is doing the best it can with staff available.

⇒ Mike Penn will discuss with Pete Davis environmental issues regarding sidewalks and the bridge from SW Hall to Glenview. Issues concern erosion and sedimentation, channel stabilization of drainage channel, clean up and beautification of the area, and listed or species of concern among others.

⇒ There was discussion on attendance, involvement, and commitment by members. Thank you to those who sent prior communication of unavailability.

Members decided that the next meeting will be **3PM, Thursday, April 12th in Room 159 Pioneer Tower.**
