• Meetings for 2009 – 2010 School Year
  - Wednesday April 7th - 12:10 – 12:50pm

Statement to University Campus:

This message is to remind students, faculty, staff and visitors to our campus of the UW-Platteville Clean Air and Smoking Policy. This policy enacted August 2008 has improved air quality in and around the campus. Everyone should be applauded for helping make this campus healthier. Those individuals include people who have informed smokers of the campus policy and those smokers who know of the policy and have sacrificed their smoking privileges for the well being of everyone on campus. This message is to encourage you to continue abiding by the policy and to continue to remind smokers of the smoke free zone in and about all the academic buildings. Thank you for your continued vigilance.
