1. Minutes of the April 9th 2007 meeting was reviewed.

2. Vickie Dreessens gave the Student Health Services Report. Items discussed were:
   - Numbers of students that are seen and the breakdown of what those patients are seen for.
   - Review the 2008 SHS Faculty and Staff Survey
   - Family Planning Waiver Program is still in operation but that funding may be cut at any time.
   - Dr. Todd Riley has been moved to five days a week in which he sees patients.
   - The Health Clinic was open the Saturday students moved in. It was successful in that approximately 30 individuals with their parents came to visit the facility.
   - The Health Clinic will be updating their facilities: removing the carpet (asbestos) and placing wall board over the concrete walls.

3. Dierdre Dalsing gave the Counseling Services Report. Items discussed were:
   - A new counselor was added to the staff this year. Very helpful in handling students and also in creating time for outreach activities
   - Mental Health Screening day is Friday October 10th. There will be a booth in the Student Union.
   - One program from the Sexual Assault Awareness program from last year included a panel of student athletes discussing ways to educate the public. Ideas that were implemented: the creation of white wrist bands, posters and discussion of the issues. It was very successful. An Opportunity grant may be asked for to help establish the program for the full academic year.
