  - The numbers of patients the center are seeing are up this year.
  - The center is switching over to an electronic medical record keeping system. The switch has been learning and challenging process but the change will occur slowly. Vickie Dreessens is doing a considerable amount of work in the modification of record keeping procedures.

- Linda Mulroy-Bowden reported that she, Carol Spelic, Deirdre Dalsing and Vickie Dreessens are working to bring Larry Kirkwood to campus during Eating Disorder Week during the month of February. Body molds are used to create art work. The goal is to show everyone has a beautiful body. Linda asked the committee to consider ideas for funding opportunities for this program.

- Becky Peters reported on the Student Support Services program
  - The program is in the midst of change due to the retirements that occurred over the summer. Laura Franklin was hired to replace the position of Bernie.
  - The number of students needing support who have Aspergers Syndrome and Autism Spectrum Disorder is high this year. There is a class in the Counselor Education program who is researching information on how best to help individuals with these disorders.
