• The committee reviewed the minutes from the October 6th meeting. No changes will be made but any concerns need to be expressed before Friday Dec. 11th. They will be posted at that time.

• Vickie Dreessens gave the Student Health Services (SHS) Report:
  o The SHS will transition 100% to the electronic medical records by January 11th, 2011.
  o The number of students suffering from the flu is down at this time of the year. The SHS has extra flu immunizations. They will save these for later in the year when the flu does hit the campus and students will be looking for protection.
  o The SHS has transitioned to a new triage system. They are working with students over the phone. These are for students who are suspected to have the flu. So far the system seems to be working well.
  o All members of the committee are invited to the SHS open house on Dec.16 from 11:30-1:00 PM.

• Becky Peters gave the Student Support Services Report
  o Staff and students in the tutoring services are feeling the stress of this time of the year. Students do not seem to be handling the stress as well as they have in the past years.
  o The number of students with disabilities using the services is up this year. The program is helping blind students, students with Asperser’s Syndrome and students suffering from mental illness.
