

FIRST stands for "For Inspiration and Recognition of Science and Technology". The FIRST Team works with local high school students to design, build, and compete nationally against more than 1300 teams. FIRST Robotics gives you a chance to mentor students to better themselves in science and technology.

FIRST has something for YOUR major!

- Engineering- Design and Build the Robot
- Business- Manage and Direct the Team's Business Affairs
- Communication- Promote and Develop Team Public Relations
- Computer Science- Program and Test the Robot's Operation
- Education- Teach and Mentor High School Students
- Art- Design Team Promotional Materials
- Industrial Technology- Manage the Robot Fabrication and Team Safety
- Undecided- Get Involved in a Dynamic Organization will expose you to many experiences

Reasons to Join

- Hands-on Experience in your major
- Resume and Career Builder
- Develop Team-working Skills

This experience in team building, problem solving, and mentoring young minds is invaluable for your career and employers love to see this on your resume.
