Ul-Haq asked about their study habits when they were in high school and their current study habits. This will be an ongoing research project.

4. Discussion of Proposed Questions
   One main concern would be the resistance from faculty regarding the more detailed assessment questions.
   - A suggestion was to continue next year with the less detailed questions and then the following year inform the departments of the upcoming assessment process and provide them with the detailed request.
   - This proposal would help give departments some structure.
   - Agriculture will be up for review in year two; Montgomery volunteered to be a test subject.

   Action postponed until the next meeting May 12.
