**Levels of Swim Instruction**

**Infant/Parent**: For children 6 months–2 years old, to help children feel comfortable in the water.

**Child/Parent**: For children 3–4 years old, to focus on the early basics of swimming.

**Beginner**: For children 5 plus years old who need water orientation, fundamentals of swimming.

**Level I**: Children who are comfortable in the water without support will learn basic skills in bobbing, floating, flutter kicking, rhythmic breathing, and strokes.

**Level II**: Children can already float by themselves, feel comfortable submerging their heads, have a proficient flutter kick, and are ready to learn the backstroke and front crawl with rhythmic breathing.

**Level III**: For children proficient in front and back crawl and are comfortable in water where they cannot touch the pool bottom. Focus on survival floating, elementary backstroke, and beginning diving.

**Level IV**: For swimmers proficient in front crawl with rhythmic breathing, back crawl, and elementary backstroke with a whip kick. Focus on sidestroke and breaststroke.

**Level V**: For swimmers proficient in front crawl, elementary backstroke, and sidestroke. Learn to master the breaststroke, rescue stroke, and surface dive.

**Level VI**: For swimmers proficient in front crawl, back crawl, elementary backstroke, sidestroke, and breaststroke. Focus on butterfly, competitive turns, and increasing endurance.

If in doubt of your child’s ability, register for the lower level. Parents may observe the last class of each session from the balcony.

*An adult must participate during each Infant/Parent or Child/Parent registration. Only one registration is necessary for each Infant or Child/Parent.*

Create Your Very Own Vision Board
A vision board is a collage of images, pictures, and affirmations of your dreams, goals, and things that make you happy. It can also be called a dream board, treasure map, or vision map. Creating a vision board can be a useful tool to help you conceptualize your goals and can serve as a source of motivation as you work towards achieving your dreams. Seeing a vision can serve as a source of motivation as you work towards achieving your dreams. Seeing a vision board regularly helps remind you what you want to do, be, have, and helps to ensure that you continue to move towards those things, both consciously and unconsciously. Bring a friend!
