In their own words …
Experience – Grow - Make a Difference

How did your internship opportunity happen?
One of my UW-Platteville instructors, Carole Spelic’, knew the director at the Monroe Arts Center and helped me land the internship.

How does your internship complement your academic goals?
As an art major, being exposed to the various aspects of the art-related field has helped me gain tremendous experience.

How are you spending your days?
I have been given responsibility for the Monroe Arts Center’s social media presence. I also help out with various tasks that the employees need assistance with.

What types of skills are you learning?
I am learning to become more organized with both office space and in working with others. I am learning so many new skills. I have also had the opportunity to be in a position of leadership.

What has been the best part of this experience?
I enjoy being able to help with so many new and different things. Just this past week, I had the opportunity to help an artist install her gallery pieces into the Frehner Gallery at the Monroe Arts Center. It was a great experience!
